

## Audible Data Cleaning Project

Dataset Link: <https://drive.google.com/file/d/1yjyozaSrwShoaROq-TDuSgC5HNLLmrTE/view?usp=sharing>

### Project Description:

Utilize Power Query Editor in Excel to clean and standardize an Audible dataset. Tasks include formatting columns, ensuring data consistency, and preparing the dataset for analysis.

1. Standardize the name column to ensure consistent title casing.
2. Separate combined first and last names in the author column if they are currently combined.
3. Ensure all entries in the releasedate column follow a consistent date format (DD-MM-YYYY).
4. Convert the time column from text format to a duration format that Excel recognizes.
5. Ensure the price column is in a numeric format, and identify any non-numeric values.
6. Convert text ratings in the stars column to numeric values.
7. Split the narratedby column into multiple columns if multiple narrators are listed.
8. Merge the releasedate and language columns into a single new column named releaseinfo with the format "DD-MM-YYYY, Language."
9. Ensure all currency values in the price column are formatted consistently with two decimal places.

### Submission Instructions:

1. Submit the link to your cleaned dataset.
2. Attach the PowerPoint presentation with the screenshots and explanations.

Please ensure that all files and screenshots are clear and well-organized. If you have any questions, feel free to reach out.

Happy analyzing!

Your goal for this week - **Submit Week 2 Project by end of Sunday, 6th October.**

Do not forget - Done is better than perfect! ♡
